## Hilighting Drops Starter Kit Redux Instruction

### DETAILS:

All the tools and ingredients needed to make 5 different highlighting colors in 5 1/2 fl oz bottles. Here is the recipe that Katelyn provides:

### RECIPE:

Mix approximately 1 tsp grape seed oil with 2 tsp cyclopentasiloxane and 2 tsp of your desired pigment in your silicone bowl and stir with whisk. Each sample bag contains about 3 teaspoons. After testing the color for consistency, you may add all the rest of the sample bag. It can take a little bit of back and forth to find the perfect consistency and, surprisingly, each color is a little different. Also add 1-3 drops of preservative. Add 3 mixing beads to your dropper bottle, and pour the mixture into the bottle.

### WHAT'S INCLUDED?

- 5 flint glass ½ ounce dropper bottles
- 6 grams each (about a tablespoon) of the five different colors mentioned in the video.
- 2 fl oz Grapeseed oil
- 2 fl oz Cyclopentasiloxane
- 1/2 fl oz Cap-5 Preservative
- Pack of 30 Economy Mixing Monster Beads
- 1 Silicone Melter Bowl (color will vary)
- 1 Whisk

This is the tutorial from Katelyn Galloway (KikiG)
