## MINI LIP BALM KIT INSTRUCTIONS

### WHAT YOU GET:

WHITE BEESWAX, YELLOW BEESWAX, CASTOR OIL, JOJOBA OIL, VITAMIN E OIL, CARMINE LIP LIQUID, FLAVORING OIL, MINI SPATULA, MELTING CONTAINER, LIP BALM TUBES, LABELS AND SHRINK BANDS

### WHAT YOU NEED TO SUPPLY:

TEASPOON MEASURE

MICROWAVE OR DOUBLE BOILER (instructions are for microwave method)

HAIR DRYER/HEAT GUN

PLEASE BE AWARE THAT THE CARMINE LIP LIQUID WILL STAIN

PAPER TOWELS IN CASE OF A SPILL

PROTECIVE GLOVES – OPTIONAL

### HOW TO MAKE LIP BALM:

1 teaspoon EITHER Beeswax

5 teaspoons Castor Oil OR Jojoba Oil OR a combination of both

1 teaspoon Vitamin E Oil

1 teaspoon Carmine Lip Liquid

6 or 7 drops Flavoring oil

1. Measure the Beeswax, Castor Oil/Jojoba Oil, Vitamin Oil and Coloring Oil into the melting container.
2. Melt ingredients in the microwave. We found the best way is to do it in 10 second increments. It took us 40 seconds total. Your microwave may be different.
3. Add the Flavoring Oil. Mix together completely with the Spatula.
4. Let the mixture cool *slightly* and pour directly into the Lip Balm Tubes. If you wait too long and the mixture hardens, just reheat it gently.
5. Fill the Tubes not quite to the top. Don't worry about the hole that goes down the center, it's normal.
6. Decorate the label and stick it around the middle of the Lip Gloss Tube horizontally
7. Shrink Band. The Shrink Band opens at either end and all you have to do is slip the Tube inside. Once the Tube is enveloped in the Shrink Band, heat the Shrink Band with your Hair Dryer until the plastic shrinks to the size of the Lip Gloss Tube. Please see the video called "Video Snippet How to Put a Shrink Band on a Jar" in the 'VIDEO' section at [TKBTRADING.COM](http://TKBTRADING.COM).
