

**SECTION 1: Identification**

Product Name: Manganese Violet
Intended Use: Cosmetic pigment
Supplier: TKB Trading, LLC | 939 E 11th St, Oakland, CA 94606
Email / Web: support@tkbtrading.com | www.tkbtrading.com
Emergency: CHEMTREC 24hr/7days | USA/Canada: 1-800-424-9300
Standard: 29 CFR 1910.1200 | Revision: 02/26/2020 | Version 0.0

SECTION 2: Hazard Identification

GHS Classification: Not classified. No labeling required under GHS directives.
Other Hazards: Dusty organic products — possibility of dust explosion should always be considered.

SECTION 3: Composition / Ingredients

Chemical characterization: Pigment. No hazardous components to disclose.

SECTION 4: First Aid Measures

General: Take off immediately all contaminated clothing.
Inhalation: Remove to fresh air. If breathing difficulty, seek medical advice.
Skin Contact: Cleanse with plenty of water, soap, or other non-irritating cleansing agents.
Eye Contact: Irrigate thoroughly with water, eyelids held open. Consult a doctor if needed.
Ingestion: Have patient drink water repeatedly (with activated carbon if possible). Seek medical advice if unwell.
Symptoms: See hazard statements. No specific acute/delayed effects identified.

SECTION 5: Fire-Fighting Measures

Suitable Media: Water spray, foam, dry powder.
Unsuitable Media: CO2 should not be used.
Special Hazards: Not determined.
Firefighter PPE: Self-contained breathing apparatus required.
Further Information: Fire residues and contaminated firefighting water must be disposed of per local regulations.

SECTION 6: Accidental Release Measures

Personal Precautions: Avoid formation and deposition of dust.
Environmental: Do not empty into drains or waters.
Containment & Cleanup: Take up with dust-binding material or suitable vacuum cleaner. Fill into labelled, sealable containers.
Further Information: For disposal measures see Section 13.

SECTION 7: Handling and Storage

Safe Handling:	Avoid formation and deposition of dust. Keep container tightly closed and dry.
Fire/Explosion:	Observe usual precautionary measures for chemicals with dust-explosive properties. Observe national regulations.
Storage:	Store in original container in a cool, dry place. Precautionary measures against static discharges during filling.
Storage Stability:	60 months shelf life.

SECTION 8: Exposure Controls / Personal Protection

OEL Components:	No occupational exposure limits applicable.
General:	Do not breathe dust. Avoid contact with eyes and skin. Remove contaminated clothing immediately.
Hygiene:	Keep away from food and drink. Do not eat/drink/smoke at work. Wash hands before breaks and after work.
Respiratory:	Dust mask with particle filter.
Hand Protection:	Suitable gloves e.g. PVC or nitrile rubber. Change immediately if contaminated.
Eye Protection:	Safety glasses with side protection shield.
Body Protection:	Wear protective clothing.

SECTION 9: Physical and Chemical Properties

Form:	Powder	Upper Explosion Limit:	Not determined
Color:	Violet	Vapor Pressure:	Not determined
Odor:	Odourless	Density:	Not determined
Melting Point:	Not determined	Water Solubility:	Not determined
Boiling Point:	Not determined	pH:	Not determined
Flash Point:	Not applicable	Log Pow:	Not determined
Ignition Temperature:	Not determined	Viscosity:	Not determined
Flammability:	Not determined	Bulk Density:	Not determined
Lower Explosion Limit:	Not determined	Dust Explosion Class:	Not determined

SECTION 10: Stability and Reactivity

Reactivity:	No hazardous reactions when stored and handled according to prescribed instructions.
Chemical Stability:	No thermal decomposition when stored and handled correctly.
Hazardous Reactions:	Dusty organic products — dust explosion possibility should always be considered.
Conditions to Avoid:	Not necessary under prescribed conditions.
Incompatible Materials:	Not necessary under prescribed conditions.
Hazardous Decomp. Products:	Not applicable.

SECTION 11: Toxicological Information

Acute Oral Toxicity:	LD50 > 2,000 mg/kg
Acute Inhalation Toxicity:	Not determined
Acute Dermal Toxicity:	Not determined
Skin Irritation:	Non-irritant
Eye Irritation:	Non-irritant
Sensitization:	Non-sensitizing
Repeated Dose Toxicity:	Not determined
Mutagenicity:	Not determined
Carcinogenicity:	Not necessary (IARC: No NTP: No OSHA: No ACGIH: No Cal Prop 65: No)

Routes of exposure: Inhalation, Skin Contact, Eye Contact, Ingestion.
 Not expected to cause significant irritation. Minimize exposure per good industrial hygiene.
 Persons with pre-existing skin, eye or respiratory conditions may be more susceptible.

**SECTION 12: Ecological Information**

Fish Toxicity: LC50 >100 mg/l (96 h)
Daphnia / Algae: Not determined
Persistence/Degradability: No adverse effect on activated sludge degradation if effluent regulations are followed.
Bioaccumulative Potential: Not determined
Mobility in Soil: Not determined
PBT / vPvB Assessment: Not determined

SECTION 13: Disposal Considerations

Product Waste: If utilization or recycling is not possible, dispose per local regulations, e.g. incineration in a suitable plant.
Contaminated Packaging: Soiled empty containers to be treated in the same way as the contents.

SECTION 14: Transport Information

DOT / IMDG / IATA: Non-dangerous goods — not regulated for transport.

SECTION 15: Regulatory Information

TSCA: Components listed on the TSCA inventory.
SARA 313: Not subject to SARA Title III Section 313 reporting requirements under 40 CFR 372.
SARA 312 Hazards:
Immediate (acute) health hazard: No
Delayed (chronic) health hazard: No
Fire hazard: No
Sudden Release of Pressure: No
Reactivity: No
HMIS Code: 1 - 0 - 0 - B

SECTION 16: Other Information

Revision Date: 02/26/2020 | Version: 0.0
Standard: 29 CFR 1910.1200, OSHA Hazard Communication Standard

The information in this SDS is believed to be accurate and given in good faith but no warranty as to completeness or accuracy is made. Users are responsible for determining the suitability of these products for their own particular purpose. It is hereby confirmed that the delivered goods have been examined and are in accordance with our confirmation of order.
