

**SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING****1.1 Product Identifier**

**Product Name:** TKB Lip Liquid — Roasted Chestnut  
**Product Code:** KV-703  
**Product Type:** Cosmetic lip colour — mixture

**1.2 Relevant Identified Uses and Uses Advised Against**

**Identified Use:** Decorative cosmetic for application to lips  
**Uses Advised Against:** Industrial, food-contact, or non-cosmetic applications

**1.3 Details of the Supplier of the Safety Data Sheet**

**Company:** TKB Trading, LLC  
**Address:** 939 E 11th St, Oakland, CA 94606, USA  
**Telephone:** +1 (510) 451-9011  
**E-mail:** support@tkbtrading.com  
**Website:** www.tkbtrading.com

**1.4 Emergency Telephone Number**

**Emergency Contact:** Poison Control Hotline: 1-800-222-1222 (USA, 24 hr/7 days)

**SECTION 2: HAZARDS IDENTIFICATION****2.1 Classification of the Substance or Mixture**

**CLP Classification:** Not classified as hazardous per Regulation (EC) No 1272/2008  
**Signal Word:** None required  
**Hazard Statements:** None

**2.2 Label Elements**

**Hazard Pictograms:** None required  
**Precautionary Stmts:** None mandated under CLP for this classification  
**Supplemental Label Info:** For cosmetic use only. Keep out of reach of children. Avoid contact with eyes. If eye contact occurs, rinse thoroughly with water. Not for internal use.

**2.3 Other Hazards**

**PBT / vPvB:** No substances meeting PBT/vPvB criteria per REACH Annex XIII  
**Endocrine Disruptors:** None identified per Delegated Reg. (EU) 2017/2100  
**Other Hazards:** Avoid prolonged contact with eyes. Not a dangerous mixture per CLP.

**SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS****3.1 Substance**

**Note:** This product is a mixture; Section 3.1 (substance) is not applicable

**3.2 Mixture**

*All ingredients present at non-hazardous concentrations per CLP Regulation (EC) No 1272/2008.*

| INCI / Chemical Name               | CAS No.    | EC No.    | CI No. | % Range |
|------------------------------------|------------|-----------|--------|---------|
| Ricinus Communis (Castor) Seed Oil | 8001-79-4  | 232-293-8 | —      | N/A     |
| Caprylic/Capric Triglyceride       | 65381-09-1 | 265-724-3 | —      | N/A     |
| Polyhydroxystearic Acid            | 58128-22-6 | 261-115-4 | —      | N/A     |
| Titanium Dioxide                   | 13463-67-7 | 236-675-5 | 77891  | N/A     |
| Iron Oxide Red (CI 77491)          | 1309-37-1  | 215-168-2 | 77491  | N/A     |
| Iron Oxide Black (CI 77499)        | 1317-61-9  | 215-277-5 | 77499  | N/A     |
| Iron Oxide Yellow (CI 77492)       | 51274-00-1 | 257-098-5 | 77492  | N/A     |
| Red 40 (FD&C)                      | 68583-95-9 | 614-462-1 | 16035  | N/A     |

No substances require mandatory CLP disclosure as hazardous at the concentrations present. Exact percentages withheld as proprietary.

**SECTION 4: FIRST AID MEASURES****4.1 Description of First Aid Measures**

|                      |                                                                                                                                                                              |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation:</b>   | Not an anticipated route. If mist is inhaled, move to fresh air. Seek medical attention if symptoms develop.                                                                 |
| <b>Skin Contact:</b> | Wash thoroughly with soap and water. Remove contaminated clothing. Seek medical advice if irritation persists.                                                               |
| <b>Eye Contact:</b>  | Rinse cautiously with clean water for at least 15 minutes. Remove contact lenses if present and easy to do; continue rinsing. Seek medical attention if irritation persists. |
| <b>Ingestion:</b>    | Rinse mouth with water. Do not induce vomiting. Call Poison Control Hotline: 1-800-222-1222. Seek medical attention if large amount ingested.                                |

**4.2 Most Important Symptoms and Effects, Acute and Delayed**

|                 |                                                           |
|-----------------|-----------------------------------------------------------|
| <b>Acute:</b>   | Possible mild eye or skin irritation on prolonged contact |
| <b>Delayed:</b> | None known under normal cosmetic use conditions           |

**4.3 Indication of Any Immediate Medical Attention Required**

|                          |                                        |
|--------------------------|----------------------------------------|
| <b>Treatment:</b>        | Symptomatic; no specific antidote      |
| <b>Emergency Number:</b> | Poison Control Hotline: 1-800-222-1222 |

**SECTION 5: FIRE-FIGHTING MEASURES**

|                                          |                                                                             |
|------------------------------------------|-----------------------------------------------------------------------------|
| <b>5.1 Suitable Extinguishing Media:</b> | Water spray, CO <sub>2</sub> , dry chemical, foam                           |
| <b>Unsuitable Media:</b>                 | High-pressure water jet (may spread burning liquid)                         |
| <b>5.2 Special Hazards:</b>              | Thermal decomposition may produce CO, CO <sub>2</sub> , and organic vapours |
| <b>5.3 Advice for Firefighters:</b>      | Wear self-contained breathing apparatus (SCBA) and full protective clothing |

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

|                                         |                                                                                                      |
|-----------------------------------------|------------------------------------------------------------------------------------------------------|
| <b>6.1 Personal Precautions:</b>        | Avoid skin and eye contact. Use appropriate PPE (see Section 8). Ensure adequate ventilation.        |
| <b>6.2 Environmental Precautions:</b>   | Prevent entry into drains, sewers, or surface water.                                                 |
| <b>6.3 Containment and Clean-Up:</b>    | Absorb with inert material (sand, vermiculite). Collect in labelled, sealed containers for disposal. |
| <b>6.4 Reference to Other Sections:</b> | Section 8 for PPE; Section 13 for disposal                                                           |

**SECTION 7: HANDLING AND STORAGE****7.1 Precautions for Safe Handling**

|                          |                                                                                         |
|--------------------------|-----------------------------------------------------------------------------------------|
| <b>Safe Handling:</b>    | Use per cosmetic purpose. Avoid prolonged contact with eyes. Wash hands after handling. |
| <b>Hygiene Measures:</b> | Do not eat, drink, or smoke during use. Follow good hygiene practice.                   |
| <b>Shelf Life:</b>       | 24 months from manufacture date when stored as directed.                                |

**7.2 Conditions for Safe Storage**

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Storage Conditions:</b>      | Store tightly closed at 5–25 °C, cool, dry, well-ventilated. Protect from freezing and direct sunlight. |
| <b>Incompatible Materials:</b>  | Strong oxidising agents; strong acids or bases.                                                         |
| <b>7.3 Specific End Use(s):</b> | Decorative cosmetic — lip application only.                                                             |

**SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION****8.1 Control Parameters**

|                          |                                                                            |
|--------------------------|----------------------------------------------------------------------------|
| <b>OEL / WEL / DNEL:</b> | No OELs, WELs, or DNELs established for this mixture at use concentrations |
|--------------------------|----------------------------------------------------------------------------|

**8.2 Exposure Controls**

|                                |                                                                                     |
|--------------------------------|-------------------------------------------------------------------------------------|
| <b>Engineering Controls:</b>   | General ventilation sufficient under normal cosmetic use conditions                 |
| <b>Eye / Face Protection:</b>  | Safety glasses recommended when handling bulk quantities                            |
| <b>Skin / Hand Protection:</b> | Nitrile gloves when handling large quantities; not required for normal cosmetic use |
| <b>Respiratory Protection:</b> | Not required under normal cosmetic use                                              |
| <b>Environmental Exposure:</b> | Avoid release to drains or waterways. See Sections 6 and 12.                        |

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on Basic Physical and Chemical Properties

|                               |                                     |                              |                                |
|-------------------------------|-------------------------------------|------------------------------|--------------------------------|
| <b>Physical State:</b>        | Liquid                              | <b>Appearance:</b>           | Smooth, viscous serum          |
| <b>Colour:</b>                | Brown / pink shade                  | <b>Odour:</b>                | Mild, characteristic fatty     |
| <b>Odour Threshold:</b>       | No data available                   | <b>pH:</b>                   | Not applicable                 |
| <b>Melting / Freezing Pt:</b> | Not applicable                      | <b>Initial Boiling Pt:</b>   | No data available              |
| <b>Flash Point:</b>           | No data; not classified flammable   | <b>Evaporation Rate:</b>     | No data available              |
| <b>Flammability:</b>          | Not applicable                      | <b>Explosive Limits:</b>     | Not applicable                 |
| <b>Vapour Pressure:</b>       | No data available                   | <b>Vapour Density:</b>       | No data available              |
| <b>Relative Density:</b>      | ~1.0 g/cm <sup>3</sup>              | <b>Solubility (water):</b>   | Insoluble; dispersible in oils |
| <b>Partition Coeff.:</b>      | No data available                   | <b>Auto-ignition Temp.:</b>  | No data available              |
| <b>Decomp. Temperature:</b>   | No data available                   | <b>Viscosity:</b>            | Viscous liquid                 |
| <b>Explosive Properties:</b>  | Not applicable                      | <b>Oxidising Properties:</b> | Not applicable                 |
| <b>9.2 Nanoforms:</b>         | No nanomaterials intentionally used |                              |                                |

## SECTION 10: STABILITY AND REACTIVITY

|                                  |                                                                                        |
|----------------------------------|----------------------------------------------------------------------------------------|
| <b>10.1 Reactivity:</b>          | No known hazardous reactions under normal conditions                                   |
| <b>10.2 Chemical Stability:</b>  | Stable under recommended storage conditions                                            |
| <b>10.3 Hazardous Reactions:</b> | None known                                                                             |
| <b>10.4 Conditions to Avoid:</b> | Extreme heat, open flames, freezing, prolonged direct sunlight                         |
| <b>10.5 Incompatibilities:</b>   | Strong oxidisers; strong acids or bases                                                |
| <b>10.6 Hazardous Decomp.:</b>   | CO, CO <sub>2</sub> , and organic vapours under fire conditions; none under normal use |

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on Toxicological Effects (CLP Reg. (EC) No 1272/2008)

|                                       |                                                                                    |
|---------------------------------------|------------------------------------------------------------------------------------|
| <b>Acute Toxicity (oral):</b>         | Not classified. Not expected to be acutely orally toxic at concentrations present. |
| <b>Acute Toxicity (dermal):</b>       | Not classified.                                                                    |
| <b>Acute Toxicity (inhalation):</b>   | Not classified. Low vapour pressure minimises inhalation exposure.                 |
| <b>Skin Corrosion/Irritation:</b>     | Not classified. Possible mild irritation with prolonged contact.                   |
| <b>Serious Eye Damage/Irritation:</b> | Not classified. Avoid contact; may cause transient irritation.                     |
| <b>Respiratory Sensitisation:</b>     | Not classified.                                                                    |
| <b>Skin Sensitisation:</b>            | Not classified. No known sensitisers at concentrations present.                    |
| <b>Germ Cell Mutagenicity:</b>        | Not classified.                                                                    |
| <b>Carcinogenicity:</b>               | Not classified. No IARC Group 1/2A listings at use concentrations.                 |
| <b>Reproductive Toxicity:</b>         | Not classified.                                                                    |
| <b>STOT — Single Exposure:</b>        | Not classified.                                                                    |
| <b>STOT — Repeated Exposure:</b>      | Not classified.                                                                    |
| <b>Aspiration Hazard:</b>             | Not classified.                                                                    |

## SECTION 12: ECOLOGICAL INFORMATION

|                                    |                                                                                |
|------------------------------------|--------------------------------------------------------------------------------|
| <b>12.1 Toxicity:</b>              | Not expected to be harmful to aquatic organisms at typical cosmetic use levels |
| <b>12.2 Persistence:</b>           | Castor oil and fatty acid esters are readily biodegradable. Dyes: no data.     |
| <b>12.3 Bioaccumulation:</b>       | No data; not expected to bioaccumulate significantly                           |
| <b>12.4 Mobility in Soil:</b>      | No data available                                                              |
| <b>12.5 PBT / vPvB:</b>            | Not classified as PBT or vPvB                                                  |
| <b>12.6 Endocrine Disruptors:</b>  | None identified per (EU) 2017/2100                                             |
| <b>12.7 Other Adverse Effects:</b> | Avoid release to environment. Does not contain fluorinated greenhouse gases.   |

**SECTION 13: DISPOSAL CONSIDERATIONS**

|                                |                                                                                                                                      |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>13.1 Waste Treatment:</b>   | Dispose in accordance with national and local regulations. Do not dispose via drain or sanitary sewer. Suggested EWC code: 20 01 30. |
| <b>Contaminated Packaging:</b> | Empty containers may be recycled or disposed per local regulations. Do not reuse.                                                    |

**SECTION 14: TRANSPORT INFORMATION**

|                                |                                              |
|--------------------------------|----------------------------------------------|
| <b>UN Number:</b>              | Not regulated as a dangerous good            |
| <b>UN Proper Name:</b>         | Not applicable                               |
| <b>Transport Hazard Class:</b> | Not classified under ADR / RID / IMDG / IATA |
| <b>Packing Group:</b>          | Not applicable                               |
| <b>Marine Pollutant:</b>       | Not classified                               |
| <b>Special Precautions:</b>    | No special transport requirements            |

**SECTION 15: REGULATORY INFORMATION****15.1 Safety, Health and Environmental Regulations Specific to the Substance or Mixture**

|                                 |                                                                        |
|---------------------------------|------------------------------------------------------------------------|
| <b>CLP Regulation:</b>          | Not classified as hazardous per Reg. (EC) No 1272/2008                 |
| <b>REACH:</b>                   | All substances pre-registered or registered per Reg. (EC) No 1907/2006 |
| <b>EU Cosmetics Regulation:</b> | Formulated to comply with Regulation (EC) No 1223/2009                 |
| <b>Annex II (Prohibited):</b>   | No Annex II prohibited substances present                              |
| <b>Annex VIII / ECHA:</b>       | Poison Centre Notification submitted per Reg. (EU) 2017/542 Annex VIII |
| <b>SVHC Candidate List:</b>     | No SVHCs from ECHA Candidate List present above 0.1% w/w               |
| <b>REACH Annex XIV/XVII:</b>    | No substances subject to authorisation or restriction present          |

**15.2 Chemical Safety Assessment**

|                    |                                                           |
|--------------------|-----------------------------------------------------------|
| <b>Assessment:</b> | Not required for this mixture (end-use cosmetic product). |
|--------------------|-----------------------------------------------------------|

**SECTION 16: OTHER INFORMATION**

|                          |                                                                                                                                                                                                                                                                                                       |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Revision Date:</b>    | 21 September 2026   Version 1.0 (EU CLP)                                                                                                                                                                                                                                                              |
| <b>Supersedes:</b>       | October 24, 2024 (Version 1.0 — OSHA HCS 2012 / GHS Rev 3)                                                                                                                                                                                                                                            |
| <b>Regulatory Basis:</b> | CLP Reg. (EC) No 1272/2008; REACH Annex II as amended by (EU) 2020/878                                                                                                                                                                                                                                |
| <b>Key Change:</b>       | Initial EU CLP format — converted from US HCS 2024 / GHS Rev 7; EC numbers added; EU regulatory references updated                                                                                                                                                                                    |
| <b>Abbreviations:</b>    | CLP: Classification Labelling Packaging   REACH: Registration Evaluation Authorisation and Restriction of Chemicals   SDS: Safety Data Sheet   STOT: Specific Target Organ Toxicity   PBT: Persistent Bioaccumulative Toxic   SVHC: Substance of Very High Concern   OEL: Occupational Exposure Limit |
