SECTION 4: First aid measures

<u>General advice:</u>	When in doubt or if symptoms are observed, get medical advice.
<u>Inhalation:</u>	Remove casualty to fresh air and keep warm and at rest. In case of respiratory tract irritation, consult a physician.
<u>Skin contact:</u>	Change contaminated, saturated clothing. After contact with skin, wash immediately with plenty of water and soap. In case of skin reactions, consult a physician.
<u>Eye contact:</u>	In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.
<u>Ingestion:</u>	If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do NOT induce vomiting.
<u>Symptoms:</u>	No known symptoms to date.
<u>Self-protection of the first aider:</u>	Use personal protection recommended in Section 8.
<u>Note to physicians:</u>	Treat symptomatically.

SECTION 5: Firefighting measures

<u>Suitable extinguishing media:</u>	Foam;Carbon dioxide (CO2);Dry extinguishing powder;Sand
Large Fire:	Alcohol resistant foam;Water spray
<u>Unsuitable extinguishing media:</u>	Full water jet
<u>Special hazards arising from the substance or mixture:</u>	In case of fire may be liberated;Carbon monoxide;Carbon dioxide (CO2);Burning produces heavy smoke;Do not inhale explosion and combustion gases.
<u>Specific extinguishing methods:</u>	Use water spray jet to protect personnel and to cool endangered containers
<u>Special protective equipment for fire-fighters:</u>	Wear a self-contained breathing apparatus and chemical protective clothing Move undamaged containers from immediate hazard area if it can be done safely Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions: Avoid contact with skin, eyes or clothing. Use personal protection recommended in Section 8. Remove all sources of ignition. Provide adequate ventilation as well as local exhaust at critical locations. See section 7 for more information.

For emergency responders: Use personal protection recommended in Section 8.

Environmental precautions:

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

Methods and material for containment and cleaning up:

Small spill: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

Large spill: For large spills contain the material using barriers of absorbent pigs or similar.

Prevention of secondary hazards:

Remove all sources of ignition. Use only non-sparking tools.

SECTION 7: Handling and storage

Advice on safe handling:

Avoid contact with skin, eyes or clothing. Wear protective gloves and eye/face protection. See Section 8 for information on appropriate personal protective equipment. Remove all sources of ignition. Provide adequate ventilation as well as local exhaust at critical locations. Handle and open container with care.

Keep containers tightly closed in a cool, well-ventilated place. Store in a dry place. Protect from direct sunlight. Remove all sources of ignition. Keep away from sources of heat (e.g. hot surfaces), sparks and open flames.

SECTION 8: Exposure controls/personal protection

<u>Occupational exposure limits:</u>	None
<u>Engineering controls:</u>	Ensure adequate ventilation, especially in confined areas.
<u>Personal protective equipment:</u>	
Respiratory protection:	If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.
Hand protection:	Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training.
Skin and body protection:	Wear appropriate personal protective clothing to prevent skin contact.
